BIOGRAPHICAL SKETCH

Dr. Raymond Singer is a forensic and clinical neuropsychologist, certified by the American Board of Professional Neuropsychology - with Added Forensic Qualifications - and an Applied Neurotoxicologist. He earned a doctorate in Psychology from Washington State University in 1978, and was a Postdoctoral Fellow in Biological Psychiatry at New York University Medical School in 1978. From 1979-1981, he was a National Institute of Environmental Health Sciences Post-Doctoral Fellow in Environmental Epidemiology, Mount Sinai School of Medicine, New York City, and a Fellow of the Department of Community Medicine (1981-1982), where he specialized in applied neurotoxicology. While at Mt. Sinai, Dr. Singer was supervised by Dr. Irving J. Selikoff, one of the world's most influential public health physicians to this day. Dr. Selikoff was the scientist who brought asbestos to the world's attention, followed by his work illuminating the chronic effects of low-level neurotoxicant exposures.

Dr. Singer's research has been presented in various venues, including peer-reviewed publications, presentations, and courses at professional seminars. He has been a consultant in neuropsychology and neurotoxicology since 1983, and has given expert testimony in numerous civil and criminal cases in state and federal courts, including some landmark litigation. A member of the Society of Toxicology since 1985, he has served as an elected officer in two specialty sections of that society (Ethical, Legal, and Social Issues, and Clinical and Translational Toxicology). From 1993-1999, Dr. Singer served in the offices of President, Vice-President and Treasurer for the Roundtable of Toxicology Consultants, a Society of Toxicology-affiliated association of professional toxicologists. He has been designated as a Fellow of the American Psychological Association, Association of Psychological Societies, and the National Academy of Neuropsychology for distinguished professional contributions.

EDUCATION AND DEGREES

<u>Degree</u>	<u>Institution</u>	<u>Year</u>	<u>Department</u>
Doctor of Philosophy	Washington State University	1978	Psychology
Master of Science	Washington State University	1975	Psychology
Bachelor of Arts	University of Rochester	1972	Psychology

POST-DOCTORAL EDUCATION IN ENVIRONMENTAL EPIDEMIOLOGY AND
EFFECTS OF TOXIC SUBSTANCES ON THE NERVOUS SYSTEM

1981 - 1982	Fellow, Mount Sinai School of Medicine, Department of Community Medicine, Environmental Sciences Laboratory, New York City
1979 - 1981	National Institute of Health, Environmental Health Sciences, Post-Doctoral Fellow in Environmental Epidemiology, Mount Sinai School of Medicine, New York City

POST-DOCTORAL EDUCATION IN BIOLOGICAL PSYCHIATRY

1978 National Institute of Health Post-Doctoral Fellow in Biological Psychiatry, Millhauser Laboratory, New York University Medical Center, New York City

ADDITIONAL NATIONAL INSTITUTES OF HEALTH AWARDS

1972 - 1976 National Institute of Health, National Research Service Award. Researched vision and served as a teaching assistant in Sensory Psychology.

BOARD CERTIFICATION

Diplomate in Neuropsychology with Added Qualification in Forensic Neuropsychology, American Board of Professional Neuropsychology
Psychology licenses, New Mexico and New York

OTHER HONORS

Fellow status

Fellow, National Academy of Neuropsychology. Designated for “significant contributions to the Science and Profession of Neuropsychology”, June 30, 2004. (Approximately the top 7% of the membership as of 2015).

Fellow, American College of Professional Neuropsychology

Fellow, American Psychological Association. Awarded in recognition of “outstanding, substantial and unusual contribution to psychology” in both Divisions of General Psychology and Psychologists in Independent Practice. Election to Fellow status requires outstanding contributions to the field of psychology or exceptional performance, and that a person's work has had a national impact beyond a local, state or regional level. As of 2010, only 2-4% of the members had been elected a Fellow of at least one division.

Fellow, Association for Psychological Science (formerly the American Psychological Society). Permanently designated in 1992 for “Distinguished Contributions to Psychological Science”.

Appointments

Approved New Mexico Worker’s Compensation Independent Medical Examination Provider², June 16, 2011.

Appointed March 9, 2011: Honorary Member of Advisory Committee of Forensic Science Development Society (FSDS), a Registered Society under India’s Society Registration Act 21 of 1860.

²Per New Mexico Law 52-1-2, an Advisory Council establishes the Independent Medical Examination Provider Selection Committee that designates health care providers “...whose judgements are respected, or not objected to, by recognized representatives of both employer and worker interests and whose judgements are not perceived to favor any particular interest group.” As of August 2012, 59 such providers have been designated in New Mexico.

Some notable professional contributions

Selected presentation for Forensic Grand Rounds, *Forensic Evaluation of a Mold (Repeated Water Intrusions) Neurotoxicity Case*. National Academy of Neuropsychology, 25th Annual Meeting, Tampa, Florida, October 22, 2005.

Selected presentation for Adult Grand Rounds, *Neurotoxicity Evaluation of a New Commercial Solvent*. National Academy of Neuropsychology, 21st Annual Meeting, San Francisco, California, October 31, 2001.

PROFESSIONAL ORGANIZATIONS

American Academy of Clinical Toxicology (Former member)
American Board of Professional Neuropsychology
American College of Toxicology (Former member)
American Industrial Hygiene Association (Former member)
American Psychological Association (Former member)
International Neurotoxicology Association
National Academy of Neuropsychology (Member #102 since 1989; 2838 members in 2015)
Roundtable of Toxicology Consultants, Society of Toxicology: (Treasurer, 1997-99; Vice-President, 1993-94; President, 1995-96)
Society of Toxicology: (Full 25 Year Member); Member: Neurotoxicology section (app. 341 section members in 2010; app. 100 when I joined); Councilor: Ethical, Legal, and Social Issues Specialty Section, 2011-2013; Councilor: Clinical and Translational Toxicology, 2012-2013. The Society had 7,400 members in 2012; app. 2,500 members in 1986).

PROFESSIONAL EXPERIENCE

Current -1983	Neuropsychological, neurobehavioral and neurotoxicological diagnostics; Expert witness in toxic chemical litigation
Current -2011	New Mexico Worker's Compensation Independent Medical Examiner; referral work assignments from various employers, including the New Mexico state government
Current - 2010	Independent Medical Peer review consultant, MLS Group of Companies, Inc. ³
Current - 2014	Consultant, Arizona Pima County Legal Defender's Office
Current - 2014	Associate Editor, Radiation and Health section of Frontiers in Public Health, part of the Nature Publishing Group family
Current - 2013	Editorial Board, Journal of Applied Neuropsychology
Current - 2015	Consultant, Federal Public Defender, New Mexico
Current - 2015	Book chapter editor, American Industrial Hygiene Association, Toxicology Principles for the Industrial Hygienist, Second Edition, Chapter 9: Toxicology of Sensory Organs.

³ From their website: The MLS Group of Companies is a leading provider of Independent Medical Evaluations, Peer Review Services, and Functional Capacity Evaluations, with a qualified network of health care professionals throughout the United States. <https://www.mls-ime.com>

2015 Consultant, German Federal Ministry of Education & Research (BMBF) and the Netherlands Organisation for Health Research and Development (ZonMw), Proposal Reviewer

2014 Consultant Neuropsychologist, Wagon Mound School District

2013 Book reviewer in Neurotoxicology, Oxford University Press

2013 Consultant and expert witness, Texas Regional Public Defender for Capital Cases

2012 Consultant Neuropsychologist, State Farm Insurance Company, contracted by Integrated Medical Evaluations⁴

2011-2008 Manuscript reviewer, Archives of Applied Neuropsychology

Current -1998 Consultant, New Mexico State Department of Vocational Rehabilitation (not every year)

2010-2009 Consultant and expert witness, New Jersey State Public Defender

2009 Consultant, Johnson & Johnson Health Care Products and Pharmaceuticals, as contracted by ECN (Exam Coordinators Network), Nationwide Employee Medical Leave Review Services

2009-2008; 2005-2001 Consultant and expert witness, The Defender Association, Washington State Public Defender

2008 Consultant, Norfolk Southern Railway Company

2008-2001 (app.) Consultant, UNUM Insurance Company (several cases, not every year)

2007 Book chapter review, American Industrial Hygiene Association, Toxicology Principles for the Industrial Hygienist, Chapter 7A: Toxicology of Sensory Organs.

2007 Manuscript review, Environmental Health Perspectives, scientific journal published by the USA National Institute of Environmental Health Sciences, regarding brain structure and function caused by a toxic chemical environmental pollutant.

2007 Consultant, Paul Revere Insurance Company

2007-2005 Consultant and expert witness, Federal Public Defender's Office; Arizona and New Mexico

2006 Consultant, Prudential Financial, administered by Psybar, Inc., a national professional services company offering psychological and psychiatric consultations and evaluations for insurance companies and other organizations

2006-2003 Consultant, New Mexico Department of Health (via Mentor New Mexico, High Desert Family Services and other agencies), providing services for brain injury clients (Traumatic, toxic, etc.)

2002-2000 Consultant and expert witness, Missouri State Public Defender Department

2001-2000 Consultant and expert witness, New York State Worker's Compensation Board

2001-1991 Consultant and expert witness, New Mexico Public Defender Department.

2001- 1983 Adjunct Instructor, Mount Sinai School of Medicine, Department of Community Medicine, New York City

2000 Consultant, U.S. Department of Health and Human Services, Public Health Service, Agency for Toxic Substances and Disease Registry, through Eastern Research Group, Lexington, Mass.: Toxicology profiles and medical management guidelines regarding toluene, chlordane, formaldehyde, and gasoline (4 separate projects).

2000-1999 Consultant and expert witness, United States District Court, New Mexico

2000-1994 Medical Education Committee, St. Vincent's Hospital, Santa Fe

⁴ From their website: IME Inc. is a full-service scheduling company that facilitates independent medical exams, chart reviews, specialized case reviews, and expert testimony. <http://www.imewest.com/about.asp>

2000-1993 Medical Staff Associate, St. Vincent's Hospital, Santa Fe
 1994-93 Instructor, Santa Fe Community College (Course in hazardous materials)
 1994-91 Consultant and expert witness in neuropsychology and neurotoxicology, United States Department of Justice, Environmental Crimes Section, and Federal Bureau of Investigation
 1991-90 Consultant Neuropsychologist, University of the State of New York, Office of Vocational Services
 1991-90 Consultant Psychologist, Pius XII Youth and Family Services, Chester, New York
 1991-90 Consultant Psychologist, Sugarloaf Union School District, Chester, New York
 1991-90 Consultant Psychologist, New Hope Guild, Brooklyn, New York
 1991-89 Consultant and expert witness, New York State Public Defender Department (years are approximate).
 1991-83 Consultant Psychologist, New York State Department of Social Services, Office of Disability Determinations
 1984-83 Consultant in Psychology, 99th Street Rego Park Medical Arts
 1979-78 Clinical Psychology Intern, Park East Psychological Associates, New York City
 1978-72 Teaching and Research Assistant, Department of Psychology, Washington State University, Pullman, Washington

ADDITIONAL PROFESSIONAL TRAINING

Toastmasters International Communication and Leadership Program, Competent Toastmaster Certificate, June 30, 2004.

BIOGRAPHICAL LISTINGS

Who's Who in the World (13th-16th Edition; app. 37,000 - 40,000 biographies)
 Who's Who in Science and Engineering (2nd - 3rd Edition)
 Who's Who in the East (22nd Edition)
 Who's Who of Emerging Leaders in America (3rd Edition)

BOOKS

Singer, R. (1990). Neurotoxicity Guidebook. New York: Van Nostrand Reinhold. Revised First Edition, Aventure Press, 2005. Second edition under contract with Taylor & Francis Group/CRC Press⁵.

BOOK CHAPTERS OR CONTRIBUTIONS

1. Singer, R. (2011). Neurotoxicity in Neuropsychology. Book chapter in The Little Black Book of Neuropsychology: a Syndrome Based Approach, edited by Schoenberg, MR & Scott, JG. New York: Springer.

⁵The company was founded in 1852 when William Francis joined Richard Taylor in his publishing business. Taylor initially founded his company in 1798. Their subjects covered include agriculture, chemistry, education, engineering, geography, law, mathematics, medicine, and social sciences. Taylor & Francis publishes more than 1,000 journals, and over 1,800 new books each year, with a backlist of over 20,000 titles.

2. Singer, R. (2010). Forensic neurotoxicology. In The Handbook of Forensic Neuropsychology, Second Edition. New York: Springer.
3. Singer, R. (2007). Neuropsychological assessment of toxic exposures. In The Neuropsychology Handbook: Third Edition. New York: Springer.
4. Singer, R. (2005). Clinical evaluation of suspected mold neurotoxicity. Proceedings of the Fifth International Conference on Bioaerosols, Fungi, Bacteria, Mycotoxins and Human Health, Albany, New York: Boyd Printing.
5. Singer, R. (2003). Forensic neurotoxicology. In the Handbook of Forensic Neuropsychology. New York: Springer.
6. Singer, R. (1997). Neuropsychological assessment of toxic exposures. In The Neuropsychology Handbook: Second Edition, Vol 2. New York: Springer.
7. Singer, R. (1994). Neurotoxicity evaluation. In Principles and Practice of Forensic Psychiatry, edited by Richard Rosner. New York: Van Nostrand Reinhold.
8. Singer, R. (1992). Agricultural and domestic neurotoxic substances. In Preventable Brain Damage: Brain Vulnerability and Brain Health, edited by W. Gary Cannon, Lawrence Hartlage, and Donald L. Templer. New York: Springer Publishing Company.
9. Singer, R. (1991). Nervous system monitoring for early signs of chemical toxicity. Chapter in Biological Monitoring of Exposure to Chemicals: Metals, edited by H. Kenneth Dillon and M. Ho. New York: John Wiley & Sons.
10. Singer, R. (1987). How to prove nervous system dysfunction. A Guide to Toxic Torts. New York: Matthew Bender.
11. Letz, R. & Singer, R. (1985). Neuropsychological tests. In P. Grandjean (Ed.), Neurobehavioral Behavioral Methods in Occupational and Environmental Health (Document 6, pp. 17-18). Copenhagen: World Health Organization.

SCIENTIFIC JOURNAL ARTICLES

1. Singer, R. (2012). Book review: Fundamental Neuropathology for Pathologists and Toxicologists: Principles and Techniques. International Journal of Toxicology, July/August; vol. 31, 4: pp. 416-417.

PROFESSIONAL WORKSHOPS AND COURSES PRESENTED

1. Literature Review of Neuropsychological Effects of Mold. Presented at The American Academy of Environmental Medicine 49th Annual Scientific Meeting, October 23, 2014, Albuquerque. (CME credits)
2. The Neurobehavioral Evaluation of Neurotoxicity. Presented at The American Academy of Environmental Medicine 48th Annual Scientific Meeting, October 24 - 27, 2013 Phoenix. (CME credits)
3. Mycotoxins and Chronic Disease. CME approved conference, RealTime Laboratories. Discussant, January 19, 2013, Plano, Texas.
4. Forensic Applications of the Neurotoxicity Syndrome. 28th Annual Symposium of the American College of Forensic Psychology. Presented April 19, 2012, San Francisco.
5. Delusions, Neurotoxicity, and Homicide. Organizer and Co-presenter: Raymond Singer, Ph.D., Dr. Edward Dougherty, Rebecca A. Smith, J.D., M.A.. 26th Annual Symposium of the American College of Forensic Psychology. April 22, 2010, San Francisco.
6. Chemical Hyper-Reactivity Syndrome is Both a Medical and a Neuropsychological Condition. 25th Annual Symposium of the American College of Forensic Psychology. March 25, 2009, San Diego.

7. Personality and Anxiety Disorders, Such as Panic Attacks, From Neurotoxicity. 24th Annual Symposium of the American College of Forensic Psychology. April 13th, 2008, San Francisco.
8. Forensic Neuropsychology and Evaluation of Toxic Chemical Injuries. 23rd Annual Symposium of the American College of Forensic Psychology, May 3, 2007, Santa Fe.
9. Neurotoxicity of Chemical and Biological Weapons. Instructor, Fall Meeting of the Roundtable of Toxicology Consultants (a sub-group of members of the Society of Toxicology). Montreal, September 16, 2006.
10. Multiple Chemical Sensitivity Case Definition Workshop, panelist (neuropsychology, neurotoxicology). Sponsored by the Chemical Injury Information Network. San Francisco, August 4-6, 2006. Thirty panelists were selected and invited from MCS researchers and clinicians worldwide.
11. Forensic Evaluation of a Mold (Repeated Water Intrusions) Neurotoxicity Case. Third Annual Mold Conference: Mold, Mycotoxins, and the Current State of Science. Hosted by Medical Center for Immune and Toxic Disorders. The Woodlands, Texas, April 1st, 2006.
12. Junk Science, Manufactured Doubt, and Disinformation versus Science in Litigation. Instructor, Summer Meeting of the Roundtable of Toxicology Consultants (a sub-group of members of the Society of Toxicology), Gaithersburg, MD, August 27th, 2005.
13. Clinical and Forensic Mold Neurotoxicity Case Report. Second Mold Conference. Hosted by Immunosciences Lab., Inc., Beverly Hills, California, October 16, 2004.
14. Forensic Evaluation of Mold Neuropsychological Toxicology. 20th Annual Symposium of the American College of Forensic Psychology, April 1-4, 2004, San Francisco.
15. Forensic Assessment of Neurotoxicology. Sole Instructor, Fall Meeting of the Roundtable of Toxicology Consultants (a sub-group of members of the Society of Toxicology), Williamsburg, Virginia, presented October 16th, 2003.
16. Forensic Evaluation of Mold Neurotoxicity. Speaker, Environmental Issues of the 21st Century. American Association of Legal Nurse Consultants, Greater Sacramento Area Chapter, October 20, 2001, Sacramento, California.
17. Facilitator, 2001 Multiple Chemical Sensitivity Conference, sponsored by the Chemical Injury Information Network, August 13-15, 2001, Santa Fe.
18. Basic Principles of Forensic Neuropsychological Toxicology. 14th Annual Symposium of the American College of Forensic Psychology, May 1, 1998, San Francisco.
19. Psychology of Brain Injury. May 28, 1994. Presented with Santa Fe Rehabilitation, Santa Fe. Topics taught: Mechanics and physiology of brain injury; neuropsychological evaluation of brain injured patients; neurotoxic brain injury: Subtle and overt effects.

20. Neurotoxicity Evaluation, Diagnosis and Prevention. American College of Toxicology 13th Annual Meeting, San Francisco, October 24, 1992.
21. Clinical Evaluation of Patients for Neurotoxicity. American Psychological Association Centennial Convention, Washington, D.C., August 18, 1992.
22. Forensic Neuropsychological Toxicology. National Academy of Neuropsychology Eleventh Annual Meeting, Dallas, November 1, 1991.
23. Forensic Neuropsychological Toxicology. National Academy of Neuropsychology Eighth Annual Meeting, Orlando, November 4, 1988.

NATIONAL INSTITUTE OF HEALTH REPORTS

1. Singer, R., Valciukas, J., & Lilis, R. (1982, November). Nerve conduction velocity studies assessment of copper smelter workers. In Health Hazards Among Copper Smelter Workers. Report to the National Institute of Environmental Health Science.
2. Lilis, R., Valciukas, J., Singer, R., Fischbein, A., Anderson, H. A., & Glickman, L. (1981, June). Assessment of lead health hazards in an auto body shop at an automobile assembly plant. Report to the National Institute of Environmental Health Sciences.

PUBLISHED INTERVIEWS

1. Healthy People 2000: Citizens Chart the Course. Chapter of Environmental and Public Health, p. 148-149. Institute of Medicine, National Academy Press, Washington, 1990.
2. Neurotoxins - A wider threat than once thought. Safety Compliance Letter, Bureau of Business Practice, Prentice-Hall, July 25, 1988:1614.

BOOK CONSULTING EDITOR

The A to Z Guide to Toxic Foods and How to Avoid Them. Author, Lynn Sonberg, 1992, Simon and Schuster, New York.

APPEARANCES, TESTIMONY AND WORK FOR LEGISLATURES (NATIONAL, INTERNATIONAL)

1. Singer, R. (1999, June). The Neurotoxicity of Everyday Chemicals. Address to a section of the German Parliament. The Great Assembly Hall of Parliament (Deutscher Bundestag), Wasserwerk, Bonn, Germany, June 9th. Funded by and upon invitation of the German Federal Government, SPD Bundestagsfraktion.
2. Singer, R (1990) Comments in Healthy People 2000: Citizens Chart the Course Institute of Medicine, Chapter on Environmental Public Health, Page 148, National Academies Press, DC.

3. The Toxicity of Gasoline Additives (1987). Research funded by the National Renewable Fuels Association, and the report circulated among U.S. Congress and staff, regarding Congressional regulation of neurotoxic chemical additives to enhance gasoline.
4. Singer, R. (1985, October). Neurotoxicity Can Be Prevented. Written and submitted to hearings before the Subcommittee on Investigations and Oversight of the Committee on Science and Technology, United States House of Representatives, serial No. 99-68, "Neurotoxins at home and in the workplace."
5. Singer, R. (1985, September). Prevention of Neurotoxicity. Testimony presented to the United States Food and Drug Administration Symposium on Predicting Neurotoxicity from Preclinical Data.
6. Singer, R. (1984, September). Are Pesticides Safe? Testimony presented to the New Jersey State Senate.

ARTICLES, RADIO AND APPEARANCES FOR THE GENERAL PUBLIC

1. Interview: Psychiatric Drugs and Violence: The Virginia Tech Shooter. The Gary Null Show, New York City, April 20, 2007.
2. Interview: Aspartame Neurotoxicity, Jeff Rense Program, GlobalStar Communications, Telstar 5 (Intelsat Americas 5) KU Band, Internet radio, 9-10 pm MT, February 19, 2007.
3. Interview: Aspartame Neurotoxicity, KUNM Radio - 89.9 FM, Albuquerque, February 12, 2007.
4. Interview: "Environmental Health Hour" with Dr. Albert Robbins, WWNN Radio-1470 AM January 28th, 2007.
5. Interview, Friendly Fire (2006), Gary Null Productions, New York City, Gulf War Syndrome journalistic documentary.
6. Interview, Canadian Broadcasting Corporation, Wild Rose Forum, Host and producer, Don Hill. Subject: Human Health Effects of Pesticides, January 21, 2003.
7. Interview, Canadian Broadcasting Corporation, Radio One, Nightwatch, Host Don Hill, Talk Radio: Subject: Neurotoxic Chemicals in the Environment, August 2, 2002.
8. News article, Carbonless copy paper may pose risks. Fox 47 News, Reporter Victoria Dunkle, in Ingham County Community News, August 27, 2000, page 2.
9. News conference, attended by German television networks and the press, regarding the Neurotoxicity of Everyday Chemicals, Presskonferenz der Kassenärztlichen Vereinigung Nord-Württemberg, Stuttgart, Germany, June 10, 1999.
10. Expert panel discussion and dialogue. Healthier World for All: On preventing and living with MCS. In conjunction with New Mexico Gov. Gary Johnson's Proclamation of MCS Awareness Week, May 16, 1998.

11. Presentation, Pesticides and MCS. Educational meeting sponsored by the New Mexico Governor's Committee on Concerns of the Handicapped, June 24, 1996, Santa Fe.
12. Interview, German National Television - RTL. Program on pesticides and pyrethroids, October 24, 1994.
13. Panel presentation: Women, Health and the Environment Conference. Personal and occupational risks: How our daily lives are affected. October 15, 1994, Albuquerque.
14. Interview, Neurotoxic Chemicals and the Environment: Interview. Radio 1260 AM, Santa Fe, New Mexico (1994).
15. Singer, R. (1990). Neurotoxicity and Environmental Illness. The Human Ecologist, 48:15-17.
16. Interview, Radio WMCA, November 16, 1986. "In the Doctor's Office", New York.

DOCTORAL DISSERTATION

Singer, R. (1978). The relationship between visual refractive error and interests, values, personality, academic performance, and reading. Washington State University, Washington.
